State Business Executives Statement on Looming Government Shutdown

WASHINGTON, DC – State Business Executives (SBE) today issued the following statement on the potential shutdown of the U.S. Government:

> "State Business Executives calls on Congressional leadership and the U.S. Senate to keep the government funded and open. Shutdowns are reckless, costly, and disruptive to industry. They halt contracts, stall infrastructure, delay permits, and shake business confidence—hurting growth and jobs in every state. Failing to fund the government undermines our economy and risks harming America's competitiveness. Senate leaders must do their jobs, end the brinkmanship, and keep the government running—something done 13 times under the previous administration and as recently as six months ago. Businesses need stability, not chaos."
